Subject: Settle in Favor of the Microsoft Proposal and penalize the holdouts

To whom it may concern:

To Justice Department Officials, States against Microsoft, and their Lawyers:

I don't know what is wrong with you legal officials. You must settle this case in favor of Microsoft immediately. The initial attack on Microsoft by all the states was terrible and nearly destroyed the American Economy. Now you have the chance to correct your tragic mistake, which harmed thousands of lives and thousands of families, and settle this problem once and for all. Who knows if the Stock Market and economy will ever recover? Instead, we have greedy holdouts and lawyers wanting to get rich still... off of Microsoft, and at the expense of the average American citizen.

Please, accept Microsofts proposal. End this unconstitutional attack on the free enterprise system.

You are so bad, you should be removed from office or position. The States which continue to refuse Microsoft's settlement offer should be penalized for being UnAmerican, the rest of the States should refuse to trade with them, and....

ask yourself Why in the world doesn't Mr. Bill Gates take his company to Canada or somewhere where ingenuity, hard work, and the free enterprise with it's entrepraneural spirit is wanted and honored.

Act now, act right, Free Microsoft, and do your duty to God and country.
